

Clark Forklift Parts

Clark Forklift Parts - At this time, there are over 350,000 Clark lift trucks performing globally, and more than 250,000 operating in North America alone. With five major lines across the globe, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, handles more than 120,000 specialized components intended for 20 distinctive models of lift trucks and automated equipment. Your local Clark Supplier is your complete source for availability of all your parts requirements offered by Clark Totalift.

Clark features a phenomenal Parts Supply team. The items warehouses are conveniently situated in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their customers and their sellers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing manufacturers. Driven to supply the highest level of value and service to our users, Clark remains on the leading edge when it comes to improving efficiency and benefiting performance.

Internationally, Clark has one of the most amazing supplier support networks. With over 550 locations worldwide, seller representation in over 80 countries and 230 locations in North America, their high level of commitment to their consumers predominates the material handling industry.

Clark proudly remains an progressive leader of the industrial equipment industry, revolutionizing safety features such as the worker restraint system. This exceptional commitment to safety is currently a standard feature on every forklift.

Clark's relentless goal to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck producer across the globe to be certified with the internationally accepted quality standard ISO 9001 for every one of their production plants. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any environmental limitations, thus placing them in a prevailing industry position.

Clark has chosen the structure of "Lean Production" at all of its assembly facilities because this system is extremely economical and enables minimal use of resources. Developed to guarantee maximum efficiency, this system is intended to find and acknowledge the most effective ways for manufacturing facility management. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

By working collectively, Clark's product suppliers and engineers communicate towards improving product efficiency while minimizing expenses. The contemporary value engineering program combines innovative product development and offers superior consumer support and service within the industry.
