Advance-Nilfisk Parts - Think about how long and tiresome it would actually be to clean-up after a party, without help from machines. Not too long ago, the dirt from carpets and upholstery had to be beat out of them by hand; cleaning cloths, brooms, and brushes were the best cleaning products at the time.

P.A. Fisker, the founder of Nilfisk-Advance, was actually an electrical engineer who loved working with electrical motors. Founding the business in the year 1906, he began to make motors in order to drive fans, machine tools, coffee grinders and drills. Mr. Fisker's dream from the beginning was to own a global business marketing products globally.

The Nilfisk C1 was a tremendous breakthrough for the cleaning trade. This ground breaking vacuum cleaner, invented by Mr. Fisker, weighed just 17.5 kilos and could be operated by one individual.
