

Meritor Parts

Meritor Parts - Meritor is a premier international dealer which is proudly founded on a one hundred year custom of quality and service. They concentrate on a broad range of integrated systems, modules and components to original machine manufacturers and the aftermarket for the industrial and transportation trades.

Meritor prides itself in the company's distinctive energy and believes that this particular energy contributes to their competitive advantage within the worldwide operations. The business values all of their clients and wants to guarantee their success while anticipating their different needs. Meritor begins with a tradition which values diversity of individuals and their broad thought processes. Operating in 19 nations and hiring more than 11,200 people, Meritor encourages innovation and collaboration among a team of experienced professionals.

By only employing future focused workers, Meritor strongly believes these top-caliber workers would be able to rapidly adapt to changing environments and exhibit the performance and commitment considered necessary to be able to attain results in the competitive materials handling business. The company empowers their teams to make sound business decisions to be able to enhance the overall success of the company. In return, Meritor offers all of their employees different possibilities for professional and personal growth.

The Advanced Engineering team is on the forefront of components and system engineering. This comprises axles, drivelines, suspension and braking systems designed for heavy duty and medium trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives which represent the whole Asia Pacific region. This particular team is even responsible for supporting the needs of all their global engineering employees.

Meritor's dynamic and customer focused Quality team is dedicated to ensuring optimum processing at their production plants and aftermarket distribution facilities that are located all around the globe in 19 nations and in 5 different continents.

They have their supplier network which is specifically located so as to support the growth of the business. Each and every regional team has globally supported quality systems, initiatives and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making within every aspect of the trade. The DFSS or otherwise referred to as Design for Six Sigma ensures product reliability within each region. The team is also included transactional Green Belts who use Six Sigma tools to business techniques and implement lean techniques.
